DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 9 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 fails to further limit independent claim 1 since it claims an element previously claimed in the independent claim.

In claim 9, there is no antecedent basis for the "heated holding tank". If this element is the same as the previously claimed holding tank, then there should be recited some structure for providing the heating of the tank.

Claim 20 appears to be incomplete. At line 4 there it is recited that the water tank is in communication with "both a coffee filter holder". But, there is no recitation of an additional element in which the water tank is in communication with.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 and 7-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Bunn et al.

Application/Control Number: 10/710,633 Page 3

Art Unit: 1761

There is disclosed in Bunn an apparatus for making a single serving of brewed coffee and powder mix beverage, comprising: a water tank 76 and heater 93; a holding tank 24; a coffee filter holder 52 and filter 160; a dry mix hopper 34; a whipping chamber 46; and controls 32.

In regards to claims 9-11, the phrase "adapted to" and the subsequent method steps fails to positively define any structural limitations.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bunn et al.

Bunn discloses all of the claimed subject matter except for the recited height of the apparatus. It would have been an obvious matter of design choice to construct the apparatus of the claimed size, since applicant has not disclosed that the recited size solves any stated problem and it appears that the invention would perform equally well with the size disclosed in Bunn.

Allowable Subject Matter

Claims 12-19 are allowed.

Conclusion

Art Unit: 1761

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Locati and Scheer et al. are cited for their disclosure of the state of the art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Reginald L. Alexander whose telephone number is 571-272-4897. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on 571-272-1398. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
